

Kinderspital Zürich, Pränatale Beratung und fetale Chirurgie, Steinwiesstrasse 75, 8032 Zürich

To whom it may concern

Zurich, October 30, 2015 /casba

SARABEVA Ekaterina, born 2.11.1986
129642, 9/3 Proezd Dezhneva, flat 355, Moscow, Russia

The patient has been hospitalized at the Department of Obstetrics of the **University Hospital Zurich** on May 15, 2015. After standard pre-operative preparation, fetal surgery (in utero repair of spina bifida) has been successfully performed on May 18, 2015. The patient stayed at the hospital for intravenous tocolysis, fetal-maternal monitoring because an ongoing intravenous tocolysis and bed rest were mandatory. Caesarean-section took place the 28th July 2015. One week after C-section, the mother has been discharged from the hospital. On the first day of August 2015, little FEODOR SARABEV (born 28.07.2015) has been hospitalized at the University Children's Hospital Zurich, Division of Neonatology, for an extensive standard base-line diagnostic workup.

The total cost for the hospitalization at the **University Hospital Zurich** (for the entire duration of stay: from May 15 until August 1 2015, including fetal surgery and C-section) for mother and child is CHF 114'336.- (EUR 105'867.-). A deposit of CHF 29'967.- (EUR 29'100.-) has already been paid a few months ago.
